

3.600 St. Louis County
GAF- Certainteed Company Asbestos Dump ✓

June 2, 1980

Mr. John P. McGinley
Vice President, Manufacturing,
A-C Pipe Division
Certainteed Corporation
P.O. Box 860
Valley Forge, PA 19482

Dear Mr. McGinley:

This is to advise that we have completed our staff review of the project to stabilize the asbestos waste pile located at the Certainteed Corporation plant site in St. Louis County, Missouri.

The results of our latest inspection of the site conducted on May 13, 1980 confirm that the project has been completed in basic conformance with the approved plans and specifications as prepared by the consultant, Reitz & Jens, Inc. The inspector was satisfied that the necessary work has been accomplished in terms of the specified grading, covering and vegetative growth establishment provisions, as well as installation of the stream bank rip-rap and storm water drainage appurtenances. Verification of the closure plat to be filed with the County Recorder of Deeds Office has also been received in this office.

Based upon these determinations, it is our judgement that the Certainteed Corporation has taken the necessary actions to stabilize the asbestos waste pile and thereby restore the site to a condition in which it no longer poses a threat of contamination to the water or air resources of the state.

We again thank Certainteed Corporation personnel for their cooperation in resolving this matter in good order.

Sincerely,

Earl F. Holtgraewe, P.E.
